

Resource Staffing

Offering seasoned professionals with outstanding technical skills

Committed Partner. Creating Results.

Restricted time. Limited resources. Strained budgets. Increasingly specialized skills.

These constraints make hiring new employees a very difficult undertaking these days. CC Pace's resource staffing will reduce the high costs and provide rapid delivery by drawing from our pool of highly qualified, experienced consultants. We can provide resources on a subcontracting, permanent, or temp to perm basis.

We specialize in these skillsets:

- Project Management
- Business and System Analysis
- QA Testing
- Application Development
- Network Engineering
- Help Desk/Tech Support
- System Administration
- Database Development/Admin
- System selection, implementation and customization (ERP/CRM)
- Subject matter expertise in financial services and agile methodologies
- Technical Expertise in Java/J2EE, .NET, architecture and SDLC

CC Pace Differentiators:

- Value — high quality at a reasonable price
- Robust recruiting process that incorporates subject matter experts/consultants to support requirement, candidate qualification and delivery
- Strong local candidate pool within the Washington Metropolitan Region
- Integrity — evidenced by the longevity and status of our client relationships
- Continuity of staff resources — low employee turnover with consultants kept on board through market swings
- Corporate stability — 25+ year history, profitable, debt-free

Our Goal

CC Pace will not only meet, but exceed your expectations by understanding your business and staffing needs and providing you with the best candidates available in the market.
